5th International Conference on Intelligent Environments

July 20-21, 2009
(workshops day: July 19)

Technical University of Catalonia, Barcelona, Spain

<http://intelligentenvironments.org/conferences/ie09/>

The 5th International Conference on Intelligent Environments (IE'09) will be held at the Technical University of Catalonia, Castelldefels, Barcelona, Spain. It is the next edition in a series of highly successful conferences that were organized in Colchester (UK), Athens (Greece), Ulm (Germany) and Seattle (USA) in the past four years. The conference provides a collaborative forum for scientists, researchers and engineers from both industry and academia to present theoretical and practical results of Intelligent Environments research and their application in various domains and disciplines, such as Ambient Intelligence, Human-Computer Interaction, Knowledge Management, Domestic and Rehabilitation Robotic systems, Smart sensors and actuators, Space and Architecture, Art and Design, Cultural Aspects, Social Sciences, Legal and Ethical Aspects, Smart and Virtual Environments.

The conference program includes two invited lectures and hosts special sessions of full papers and short papers describing PhDs and posters. Workshops will be organized on a separate day. Information for authors and submission guidelines and templates are available at the conference web site. Use of the IE09 template is mandatory, and only papers following the instructions provided will be considered for inclusion in the proceedings, which, both for the main conference and workshops, will be published by IOS Press under ISBN.
